## SUMMARY

---

- As a graduate student and passionate about programming, my goal is to become an expert in this field. I have been developing my skills through both study and work experience and full of enthusiasm and desire to become a member of the company in the near future. Because I want to find a permanent landing.
- I have knowledge in front-end technologies such as HTML, CSS, JS, and Vue, as well as back-end technologies including OOP, MVC, and RESTful API.
- Relatively proficient in some technologies such as: VueJS, Laravel, MySQL, WORDPRESS...
- Basic understanding of support tools such as: Github, Postman.
- Effectively manage independent projects, as well as collaborate in a team environment.

## EDUCATION

---

Hanoi University of Business and Technology

-

Bachelor of Engineering, Software Engineering
